

[PDF] Quantum Mechanics Demystified

David McMahon - pdf download free book

Books Details:

Title: Quantum Mechanics Demystified

Author: David McMahon

Released: 2005-11-22

Language:

Pages: 393

ISBN: 0071455469

ISBN13: 978-0071455466

ASIN: 0071455469

Description:

From the Back Cover

- Fun FORMAT makes this complex subject EASY to GRASP
- SOLUTIONS to typical problems are EXPLAINED in full DETAIL
- Perfect for SELF-STUDY or CLASS supplement
- Great for quick REVIEW or help PREPARE for the Physics Qualifying EXAM

LEARN QUANTUM MECHANICS AT WARP SPEED!

Now anyone can master the basics of quantum mechanics -- without formal training, unlimited time, or a genius IQ. In *Quantum Mechanics Demystified*, physicist (and

student-savvy author) David McMahon provides an effective and illuminating way to learn the essentials of quantum mechanics.

With *Quantum Mechanics Demystified*, you master the subject one step at a time -- at your own speed. This unique self-teaching guide is filled with solved examples throughout, and offers problems to try at the end of each chapter to pinpoint weaknesses. A final exam serves to reinforce concepts covered in the entire book.

This fast and entertaining self-teaching course makes it much easier to --

- Master serious quantum mechanics in easy-to-follow steps
- Cut through the jargon and learn how to do quantum mechanics using worked examples
- Reinforce learning and pinpoint weaknesses with questions at the end of each chapter and a comprehensive final exam
- Learn about Schrodinger's equation, one dimensional scattering, Hilbert space, and the density operator
- Find extensive explanations of spin and angular momentum, vector spaces, matrix mechanics, the harmonic oscillator, and the hydrogen atom
- Perform better on qualifying or placement exams
- Take a "final exam" and grade it yourself!

Clear enough for beginners but challenging enough for those who already know something about advanced physics, *Quantum Mechanics Demystified* is the best self-teaching tool you can find!

About the Author David McMahon (Albuquerque, NM) works as a researcher in the national labs on nuclear energy. He has advanced degrees in physics and applied mathematics and has written several titles for McGraw-Hill.
